W. D. FORSTER, vice-president and traffic manager of the Tonopah and Goldfield railroad, was over from the southern camp this morning.

WILLIAM WEBSTER, mechanical engineer and a pioneer of Tonopah, after an absence of eight years, has returned from Grant's Pass, Ore.

MR. and MRS. JEAN JACQUES MARQUIS, Miss Harriett Rosenthal and Mrs. Evans Davidson arrived in Tonopah last night en route to New York, where they will spend the summer.

W. J. WEBSTER, president of the Atlas Powder company of Wilmington, Delaware, is expected to return tomorrow morning from a visit to the various factories extending to British Columbia.

MISS O'BRENNAN PROVES AN INTERESTING TALKER

A fair-sized audience occupied the Airdome last evening when Miss Kathleen O'Brennan spoke on the Irish cause with relation to the establishment of an Irish republic and the relations sustained by the Sinn Fein to the movement. The speaker grew eloquent as she pictured the political wrongs of Erin and brought the whole issue home to Wilson on the question of self-determination unless he insists that Ireland be granted the recognition which has been extended to the Czech-Slovaks and other races. The address was punctuated with ringing applause and at the adjournment the speaker was complimented on her forcible presentation of her case. Frank T. Dunn, who was to have presided, was called elsewhere by professional duties at the last minute and Frank J. Cavanaugh acted as chairman.

HIGH GRADE AT HANNAPAH MINE

It looks as though there is no end to the number of big strikes at Hannapah. Another one is reported today when A. J. Bovard brought in an assay which went 2.4 ounces in gold and 89.2 ounces of silver or a total of \$864.20. This sample was taken at one point on a six-foot ledge and practically at surface on his Horn-silver group of claims. Mr. Bovard after whom the camp of Bovard was named, must have had a hunch when he named this group as the ledge is all shot with "hornsilver."

An old 75-foot shaft is within about 200 feet of this strike and it is safe to predict that a turn will be made for this property very soon to start a cross-cut to this ledge.

BEGIN WORK ON THE GODSMITH DIVIDE

The first pick stuck in the ground on the site of the shaft of the Godsmith Divide this morning and in the next ten days the management which will be in the hands of H. Z. Peters, states the full equipment will be installed. The shaft is on the Gipsy claim.

TEACHERS' EXAMINATION

Examinations of candidates to fill vacancies in the schools of the southern district were conducted at the high school today. Among those in attendance were Mrs. Reische of Twin Springs and Miss Lella Garrett of Pine Creek.

A peace covenant between France and England, with America running up, would be a combination not to be sneezed at.

Stock certificates printed and bound on short notice at this office.

DIVIDE DADDY BACK ON JOB

Dick Roshelle, daddy of the Divide by undisputed title, is back in Tonopah after an absence of eighteen years and prepared to take a lease on the very ground which he surrendered when he left camp in spite of his belief that the entire Gold Mountain district was impregnated with values. Dick Roshelle made the first location in the present Divide district on the very ground on which the Tonopah Divide company has exposed untold millions. He remained three or four years and shipped considerable ore from the western side of the hill. He ascribes his loss to samples running \$6 and \$7 when, as a matter of fact, the Tonopah Divide took out samples from his discovery hole that ran \$150 at a depth of 16 feet. Dick has taken a lease on the Revert associated with George F. Badgett on his lease on the Revert. The present Tonopah Divide ground was sold by Roshelle to Key Pittman for the consideration of \$16,000 which the seller took down to the Mojave desert and established himself in the jewelry business at Randsburg. The latter town is almost deserted so Dick mosses back to his first love confident that he can make another good stake.

R. L. RICHIE COMPILES DIRECTORY OF DIVIDE

A directory of mining companies of the Divide district is being compiled by R. L. Richie, and will be published shortly. No charge is made for publishing complete information regarding Divide companies. Companies failing to send in the required information will appear only by name.

It is designed to make this directory complete and accurate in every detail. The directory will be widely advertised and considerable numbers have been ordered by eastern brokers for distribution among their clients. Data on Divide mining companies, to be included in the directory, must be forwarded promptly to R. L. Richie at Tonopah.

EUREKA DIVIDE LETS CONTRACT FOR SHAFT

The Eureka Divide has let a contract to Tim Wann for sinking the company shaft another 150 feet from the 50-foot level. The work will begin Thursday and will be put through as rapidly as possible. The shaft is going down between two big ledges on the blowout which conveys the impression that this section will be found highly mineralized at depth. The equipment is about completed with a three-drill compressor and a hoist that is good for 500 feet. Superintendent Nelson believes he has a winner as he selected the site for the shaft after careful prospecting.

NOTICE, SOLDIERS, SAILORS AND MARINES

Special meeting of all service men will be held Thursday, June 26 at 8 p. m. at the justice court.
